

Financial Crime Policy

Internal sample evidence for the Policy Compliance Tracker evaluation corpus

Document type	Policy owner	Status
Internal policy	Financial Crime Compliance Team	Approved sample

Purpose

Define internal expectations for transaction monitoring, sanctions screening, customer due diligence, and escalation of financial crime indicators.

Customer Due Diligence

Relevant customers and counterparties shall undergo documented due diligence before relationships or material transactions are approved.

Transaction Monitoring

Transactions shall be monitored using risk-based rules and review processes designed to identify unusual or potentially suspicious patterns.

Sanctions Screening

Customers, counterparties, and relevant transactions shall be screened against applicable sanctions lists before approval and at defined review points.

Escalation and Records

Potential matches and material monitoring alerts shall be escalated for investigation, with decisions and supporting records retained.

Evaluation note: This document is a project-authored internal sample used to test evidence retrieval and policy mapping. It is not an external regulation or legal standard.
